Student Feedback Report (2017-18)

In order to ensure the growth of institution the IQAC of the college collected feedback from the students. The student feedback is very important to strengthen the quality of teaching learning environment and to look for opportunities to improve overall institute performances including teacher in classroom arrangement with student to bring excellence in teaching and learning.

Feedback form has been designed through structure method to seek feedback from student (at least 30 for each faculty member). The students who are regular in the college are selected to provide the feedback of different courses during 2017-18. The analysis based on the responses received through feedback Performa of the students is presented below:-

1. Regularity in taking class:-

Student feedback revealed that more than 84% of the students feel that the teacher's regularity to class was excellent. Whereas only 13% and 3% of them evaluated the regularity of teachers in taking classes as very good and good respectively.

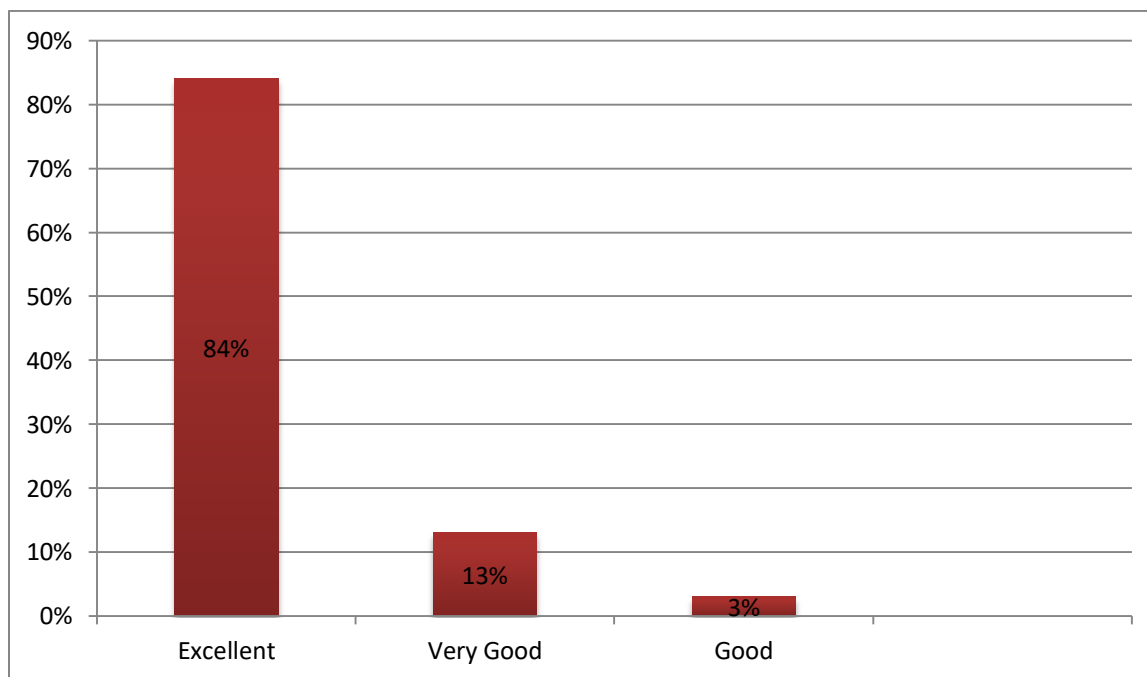

2. Teaching the subject matter:-

It was observed that 65% of the students have said the teachers were excellent in teaching the subject matter. However 33% of them evaluated the teachers as very good. Remaining 2% of them found their teachers to be good in teaching the subject matter.

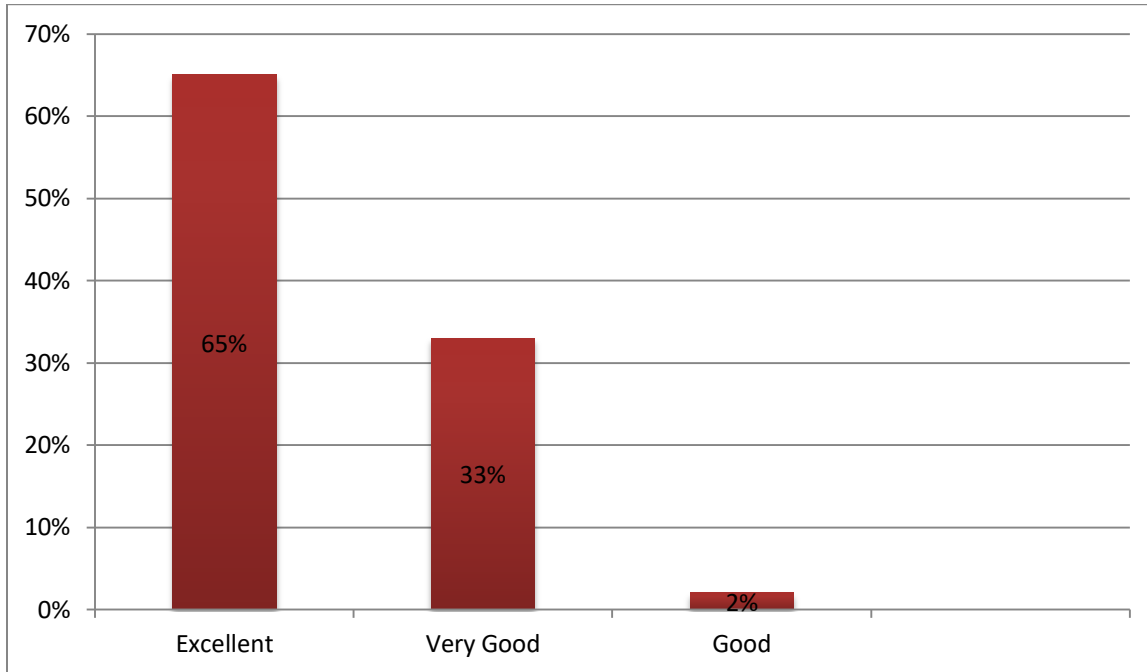

3. Helping the students in providing the study material:-

It was found that 62% of the students have said providing study material by their respective teachers was excellent whereas 27% of them experienced very good help from the teachers .11% of the students consider it to be good
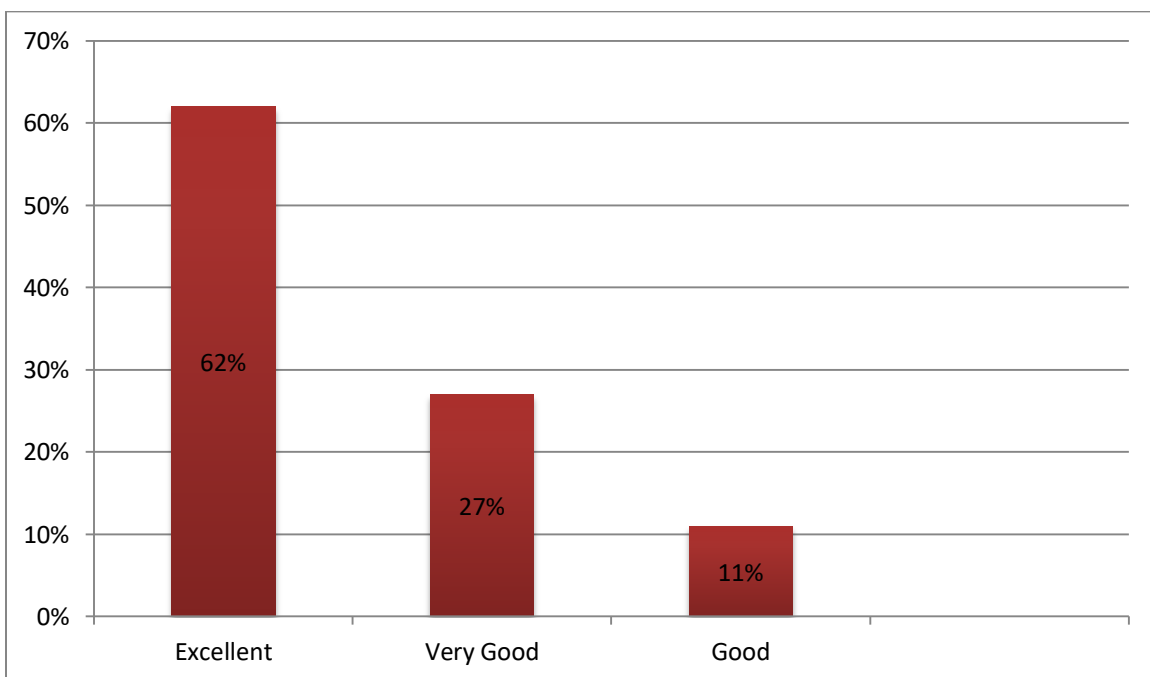

4. Skill of linking subject with life experience and creating interest in the subject:-

Guidance and mentoring play a vital role in the development of students learning process which create interest in the subject. In our analysis 48% of the students gave excellent remark to their teachers in providing the practical aspect to the subject. 42% of them rated as very good whereas only 10% of them considered them good at the skill linking the subject with life experience.

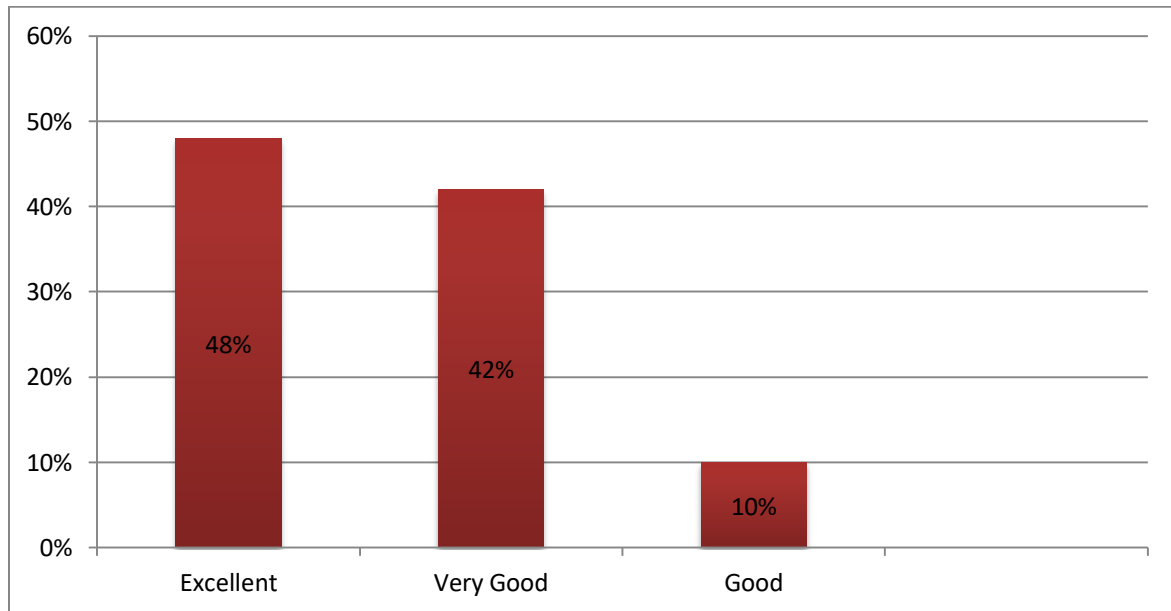

5. Use of teaching aids:-

ICT enabled learning is very important for clear understanding of the concepts and facts. Therefore, it becomes a major tool in evaluating the teaching process. It was found that 43% of students considered their teachers excellent in the use of these devices while 30% of them rated as very good and 27% of them found it to be on average.
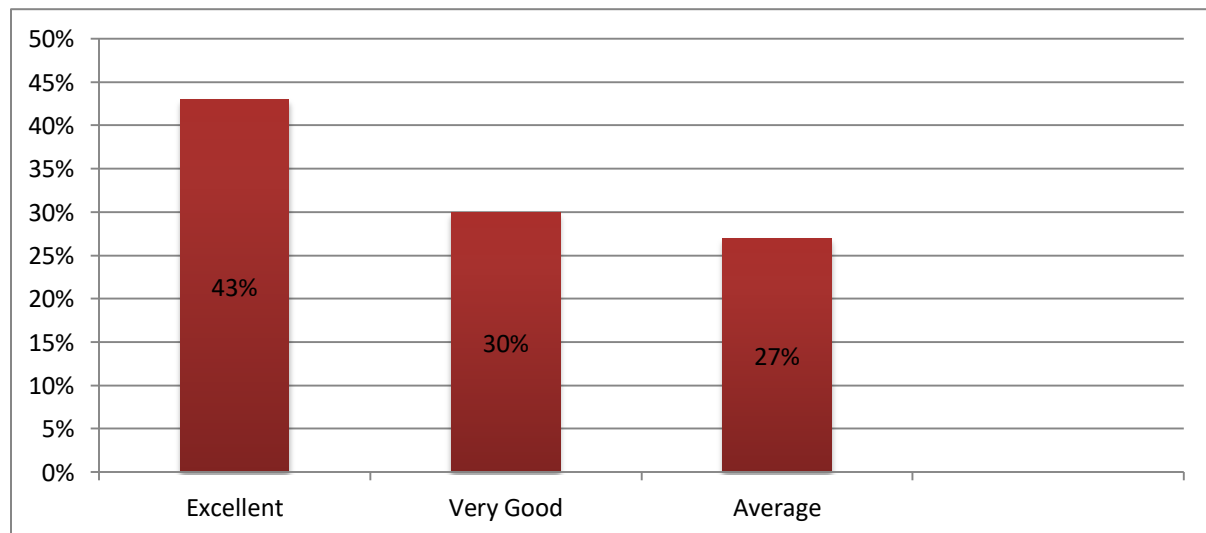

6. Students participation in class:-

The active participation in the class room is very important to improve students' confidence and concentration. Keeping in view this fact, our feedback analysis revealed that 61% of students considered their participation in class to be excellent and 35% of them ranked it as very good and only 4% of them found their participation to be good.
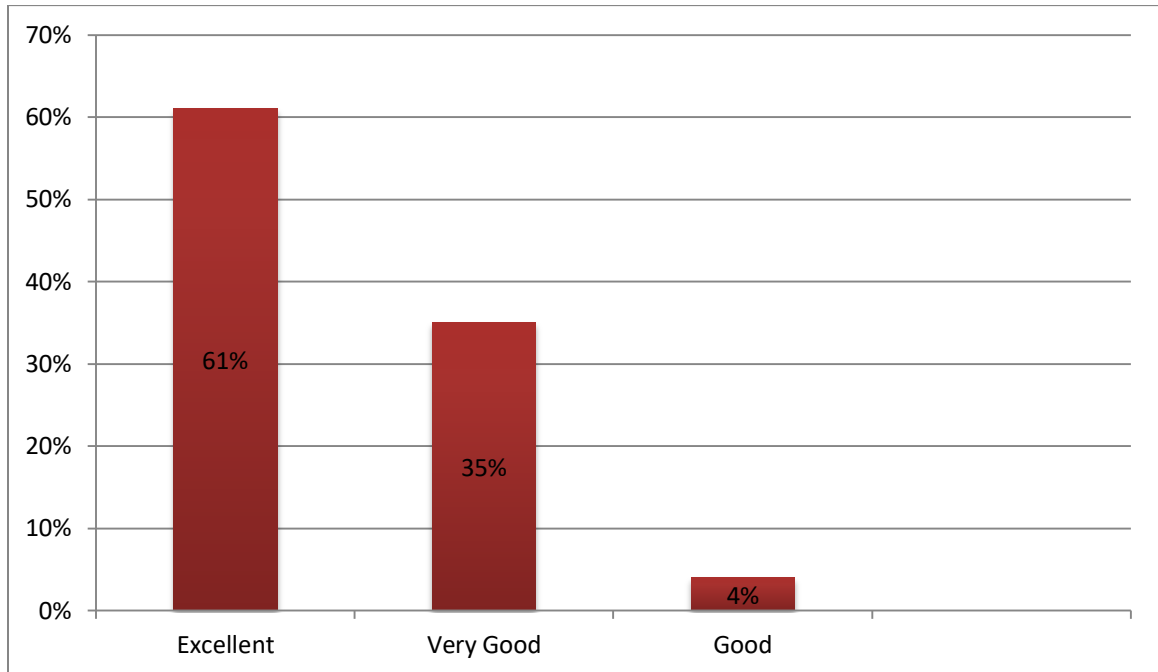

## 7. Invites opinion and questions on subject matter from students:-

For the better understanding of the concepts, inviting questions and opinions from the students is again an important aspect of teaching and learning process. In this regard, it is found that 52% of the students experienced excellent query solutions while 25% and 23% of them experienced very good and good solutions to their queries respectively.
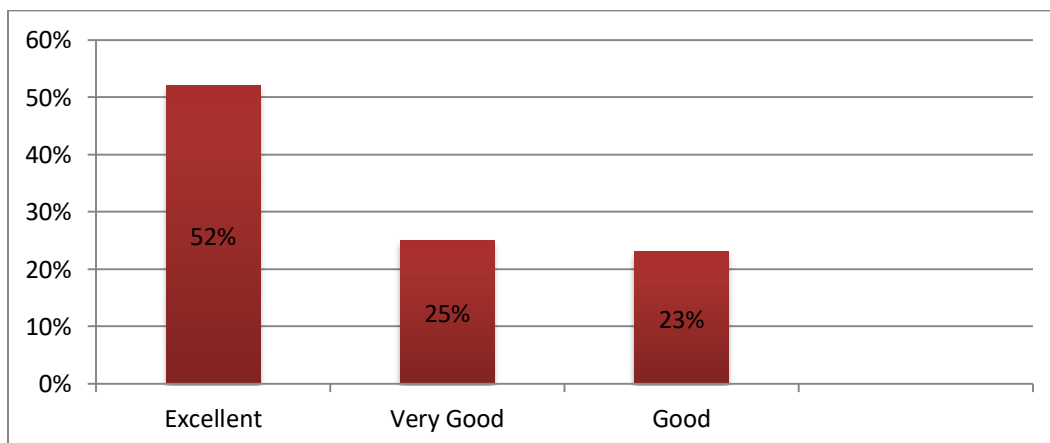

8. Completion of syllabus in time:-

Student feedback revealed that mostly (80%) students are satisfied regarding completing the syllabus in a specified time Span. Only 16% considered the completion of syllabus in time as very good and only 4% of them found it to be good.
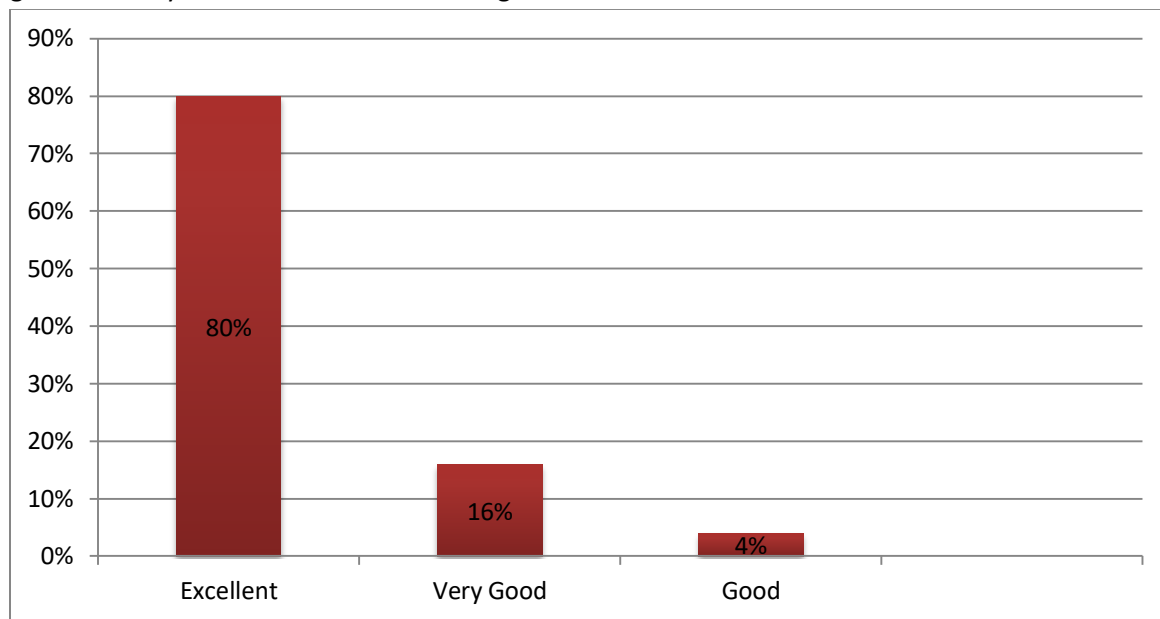

9. Scheduled organization of assignments ,class tests, seminars and class presentations:-

Internal assessment process is necessary in evaluating the performance of the students. It was found 62% of the students feel that, the teachers internal assessment process was excellent while 28% and 10% of them evaluated the teachers as very good and good respectively on the basis of organization of the assignments, class tests, presentation etc.
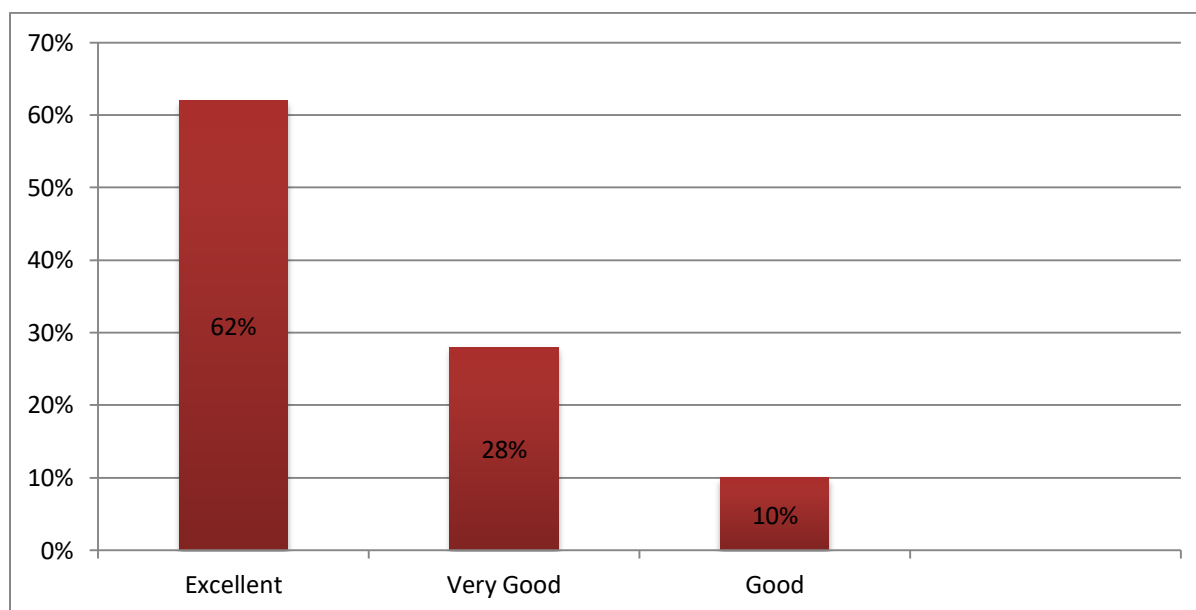

10.Helps the students in realizing career goals:-

The students must be equip with carrier setting abilities which are the ultimate aim of teaching learning process. So it becomes very important that the teachers help their students in realizing their career goals. Presently 64% of students rated their teachers as excellent and 20% of them evaluated it as very good and only 16% of them credit it as good.
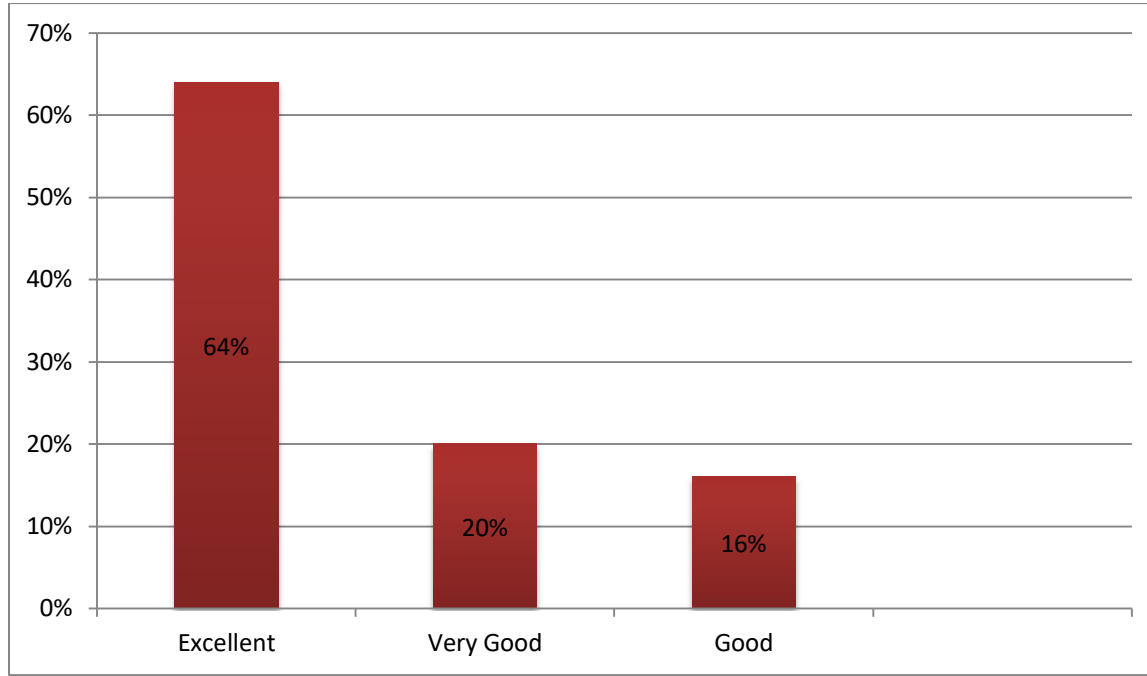

Concluding Observation:- It concludes with that students have understood and satisfied with the questions appearing in the feedback form and understands learning values in terms of Knowledge , concepts, skills, analytical abilities etc.

On the basis of analysis, suitable actions were taken so as to satisfy the expectations of students. This Further helped us to improvise our curriculum as per the expectations of the students
